

EXECUTIVE SUMMARY & CORPORATE PROFILE

A trusted link between production, markets, and delivery.

USQUARE sources, aggregates, and supplies agricultural commodities and farm inputs for domestic buyers and international markets. We connect farm gates, producer networks, processors, and commercial buyers through clear requirements, disciplined quality control, and coordinated movement.

Company overview

USQUARE GENERAL ENTERPRISE LIMITED is a Nigerian agricultural sourcing, supply-chain, and export-facilitation company incorporated as a Private Company Limited by Shares (RC 9144380). Headquartered in Abuja, Nigeria, the company combines origin knowledge with practical commercial coordination.

Strategic direction

Vision: To grow into a trusted African agro-commodity sourcing and export company that creates durable value for farming communities.

Mission: To connect agricultural producers with domestic and international buyers through dependable quality control, transparent communication, and efficient logistics.

Core organizational anchors

Integrity | Reliability | Quality | Professionalism | Sustainability | Traceability

Transparent commercial communication, careful execution, requirements-led checks, and visible handoffs.

COMMODITY PORTFOLIO

Export-ready commodities, supplied to a clear contract.

USQUARE prepares commodities around buyer requirements for product condition, packing, inspection, shipment, and destination. Final availability, volume, and specification are confirmed per contract.

Commodity range

Soya Beans - clean, sound beans; moisture and foreign matter to buyer specification.

Premium Sesame Seeds - purity, moisture, admixture, and oil-content requirements agreed with buyer.

Split & Whole Ginger - well-dried ginger checked against contract condition requirements.

Dried Hibiscus Flower - clean-sifted whole calyx; colour, moisture, and admixture set per contract.

Raw Groundnuts - count, moisture, and aflatoxin-screening requirements confirmed before dispatch.

Quality control & pre-shipment coordination

Aggregated lots are conditioned and checked against agreed commercial parameters such as moisture, purity, infestation, packing, and safety requirements. Independent inspection can be coordinated on buyer request.

Commercial supply

Domestic aggregation supports processors, institutions, and regional buyers. International supply is buyer-led and includes sourcing, conditioning, documentation coordination, inland movement, and port handover.

AGRO-INPUTS, MACHINERY & MOVEMENT

Practical inputs and accountable supply-chain support.

Alongside commodity sourcing, USQUARE supports agricultural production through local agro-input supply, machinery coordination, and the logistics systems that keep products protected and moving.

Input supply

Quality seeds | Fertilizers and plant nutrition | Pesticides, herbicides, and crop protection
Tractors and farm machinery | Irrigation, processing, and practical field equipment
Supply is coordinated against crop, soil, quantity, location, intended use, and delivery requirements.

Warehousing, logistics data & delivery

Warehousing: secure holding, lot separation, stock checks, and loading readiness.
Logistics data: quantities, dispatches, destinations, loading dates, delivery milestones, and handover status.
Inland delivery: coordinated haulage from supplier, farm cluster, or warehouse to the agreed delivery point.

Operating sequence

Buyer brief | Origin mapping | Condition & verify | Aggregate & secure | Document & move
Each supply programme starts with a clear requirement and follows an accountable path to delivery.

CORPORATE CREDENTIALS & CONTACT

Built for clear commercial engagement.

Every supply chain should be explainable at every stage, from an enquiry and requirement brief to dispatch and final handover. Supporting records are shared through the appropriate due-diligence process.
